Description:

Applications are invited for the position of Teaching Assistant (TA) in the National University of Singapore for the module GER1000 Quantitative Reasoning, which is read by the majority of first-year undergraduates from various faculties and schools. This module aims to cultivate a discerning attitude towards quantitative information and arguments.

Duties include facilitation of face-to-face discussion, supervision of group projects, providing student consultation, and design of some assessment tasks.

Successful candidates are expected to commit to two years of full-time service.

Job Requirements:

Bachelor, Master or PhD degree, preferably with experience in quantitative work. Candidates should have the following attributes:

- Interested in academic interaction with first-year undergraduates from all disciplines; proactive and reflective about his/her teaching activities;
- Competent in communicating general and numerical information;
- Competent in manipulating and interpreting basic concepts in mathematics and statistics.

We welcome interested applicants to submit a full CV to: safwan.sulaiman@nus.edu.sg
